Wellintech

Leading Professional Automation Software Company in Asia

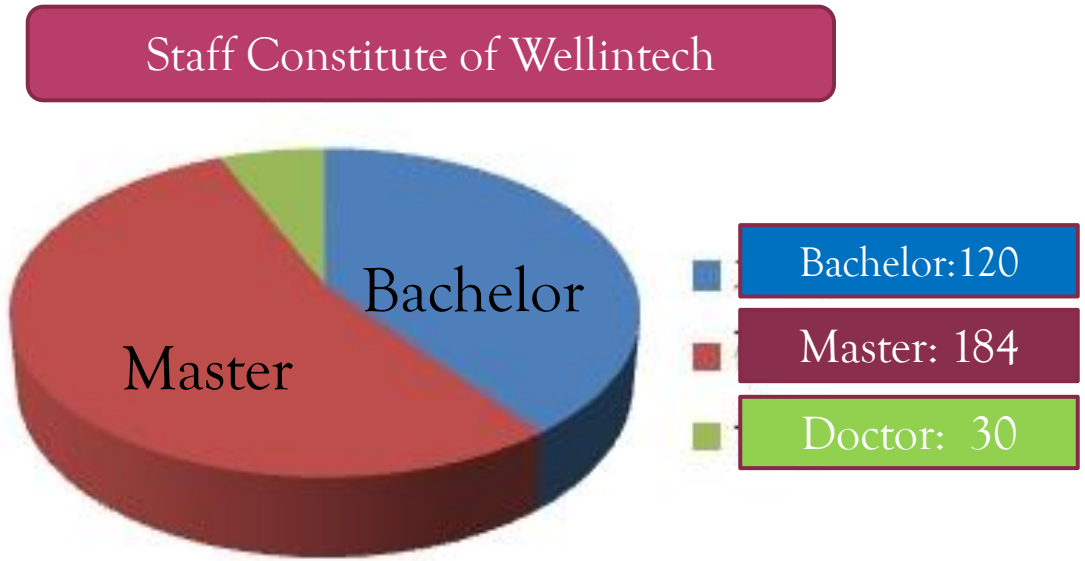
亚控科技 WellinTech

亚控科技发展有限公司
WellinTech, Inc.

Who Are We

Beijing Wellintech Technology Development Co. Ltd.

- Professional Automation Software Provider
- Founded, 1997,Beijing ,China
- Staff: early 2015, over 300
- 31 domestic branches
- 5 overseas branches



Leading Automation Software Company of Asia

Leading Suppliers of Human Machine Interface Software for Asia
2012 = 268.4 Million US Dollars

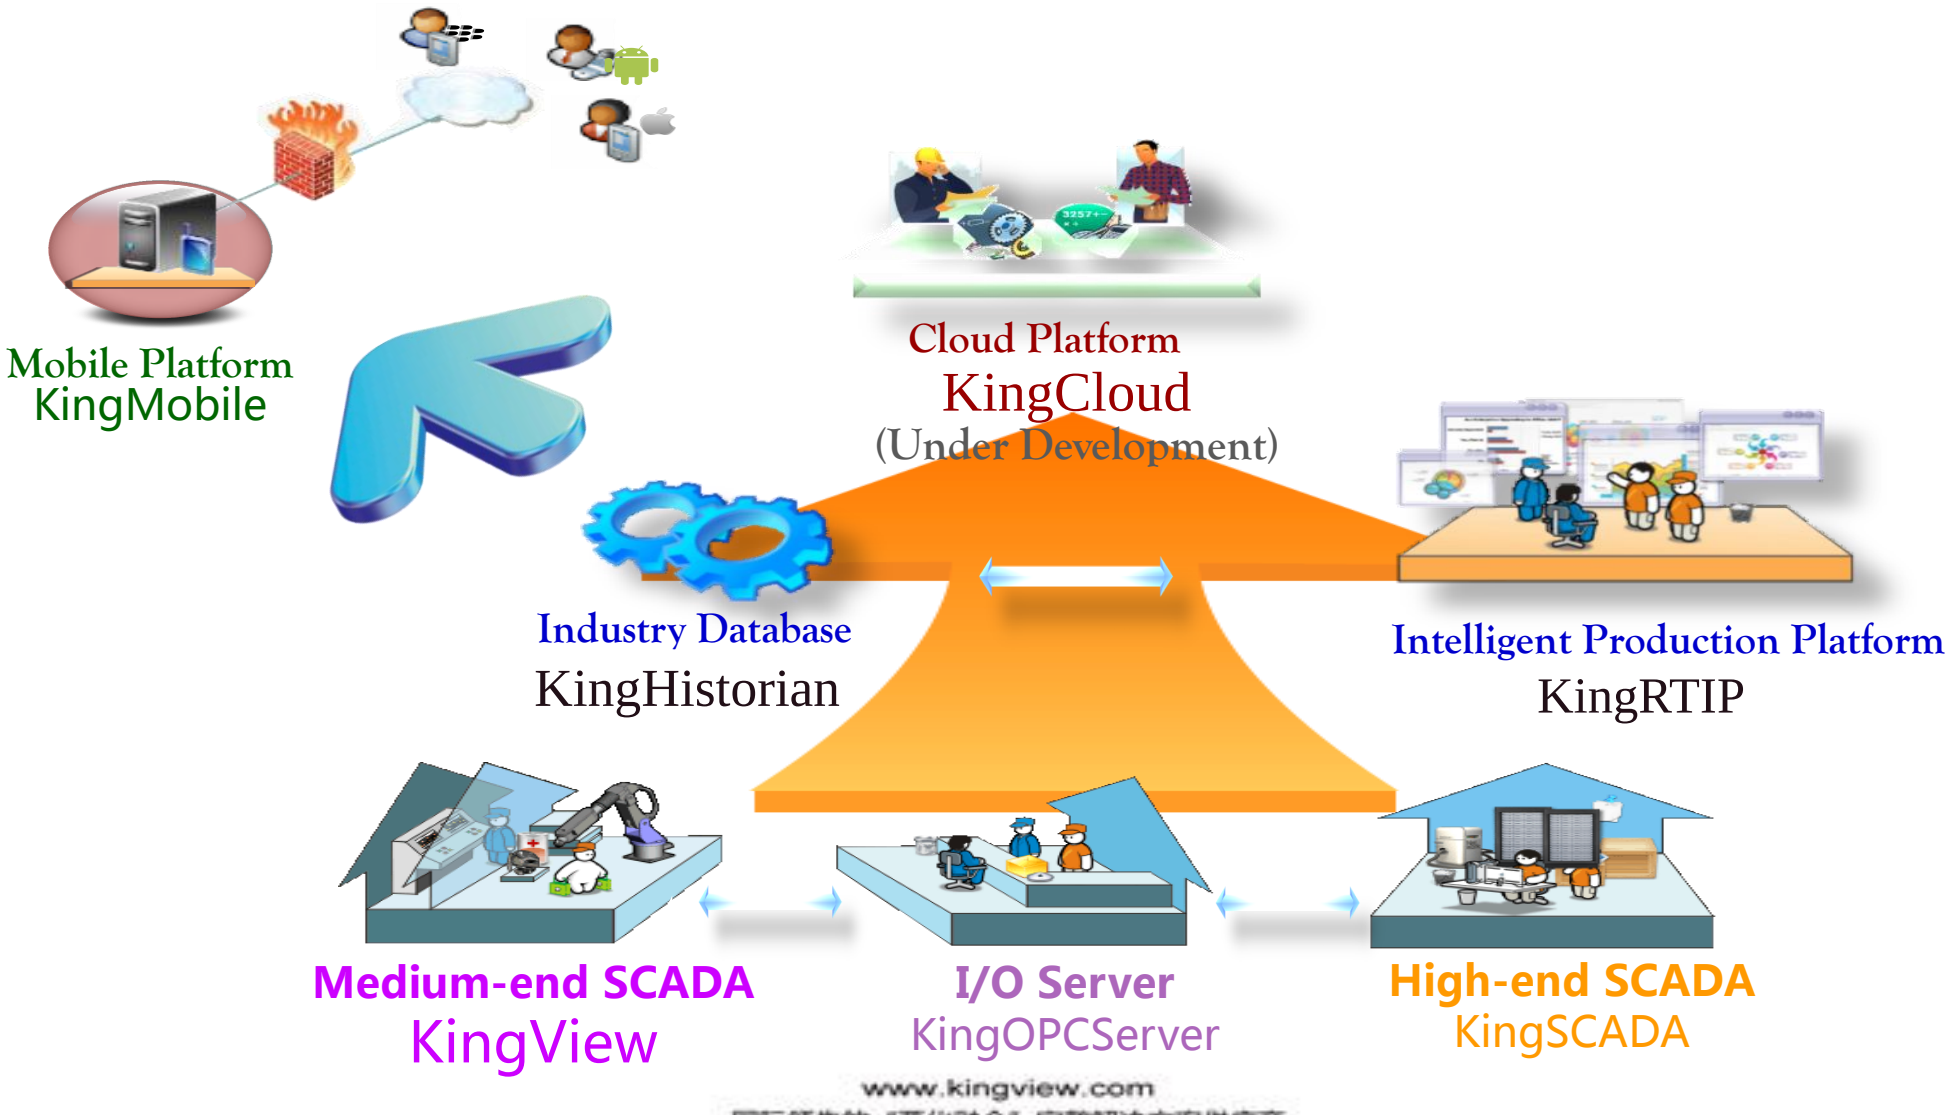
Who Are We

Overseas department

- Staff: 15
- Five branch: : Japan, Korea, Chinese Taiwan, Czech Republic, USA
- Several partners: India, Malaysia, Italy, Poland etc

What do We Offer

Longest and Complete Product Line of Automation Software in the world



What do We Offer

Management	MES solution
Data storage	KingHistorian (Released in2006/Industry DB/ High speed query
Monitoring & Control	KingView(small scale) KingSCADA(big scale)
Fields	KingHMI (Embedded version WinCE,Embedded XP)

What do We Offer

Medium-end SCADA Software——Kingview

First, most-renowned and most-applied SCADA software of Asia

Market Positioning

Low- and Medium-End Market

Customized Developments

Product Features

- ✓ Meet Customized Requirements
- ✓ Flexible, Easy to Learn and to Use
- ✓ Convenient Web-Publishing
- ✓ Over 3000 drivers

What do We Offer

Data Collection Platform — KingOPCServer

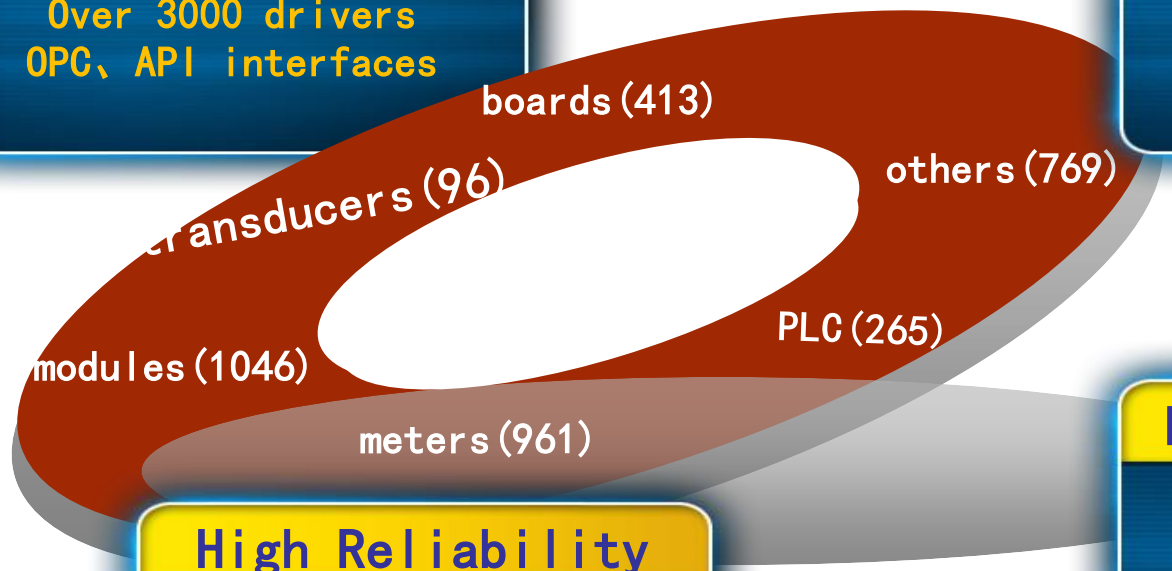
Supporting over 3000 drivers

Drivers & API

Over 1500 producers
Over 3000 drivers
OPC、API interfaces

Key Functions

Independent Multiple Threads
Block Data Collection



Remote Management

Online Configuration
Remote Diagnosis
Remote Monitoring

High Reliability

Device Redundancy
Link Redundancy
Collection Redundancy

What do We Offer

Process Monitoring Platform——KingSCADA

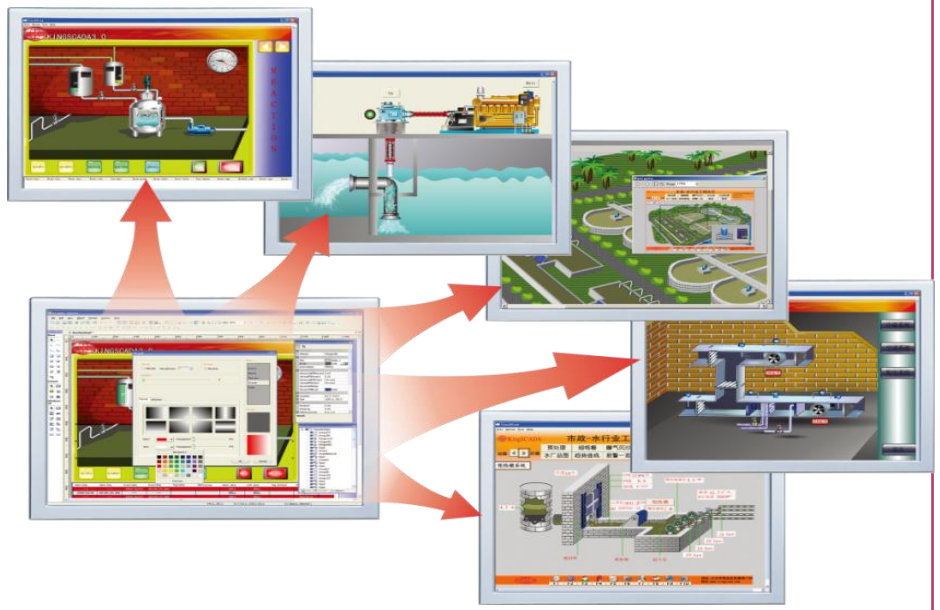
High-End SCADA Software

Market Positioning

Medium- and High-End Market， widely applied in municipal utility, oil & gas, metallurgy, electricity and other fields

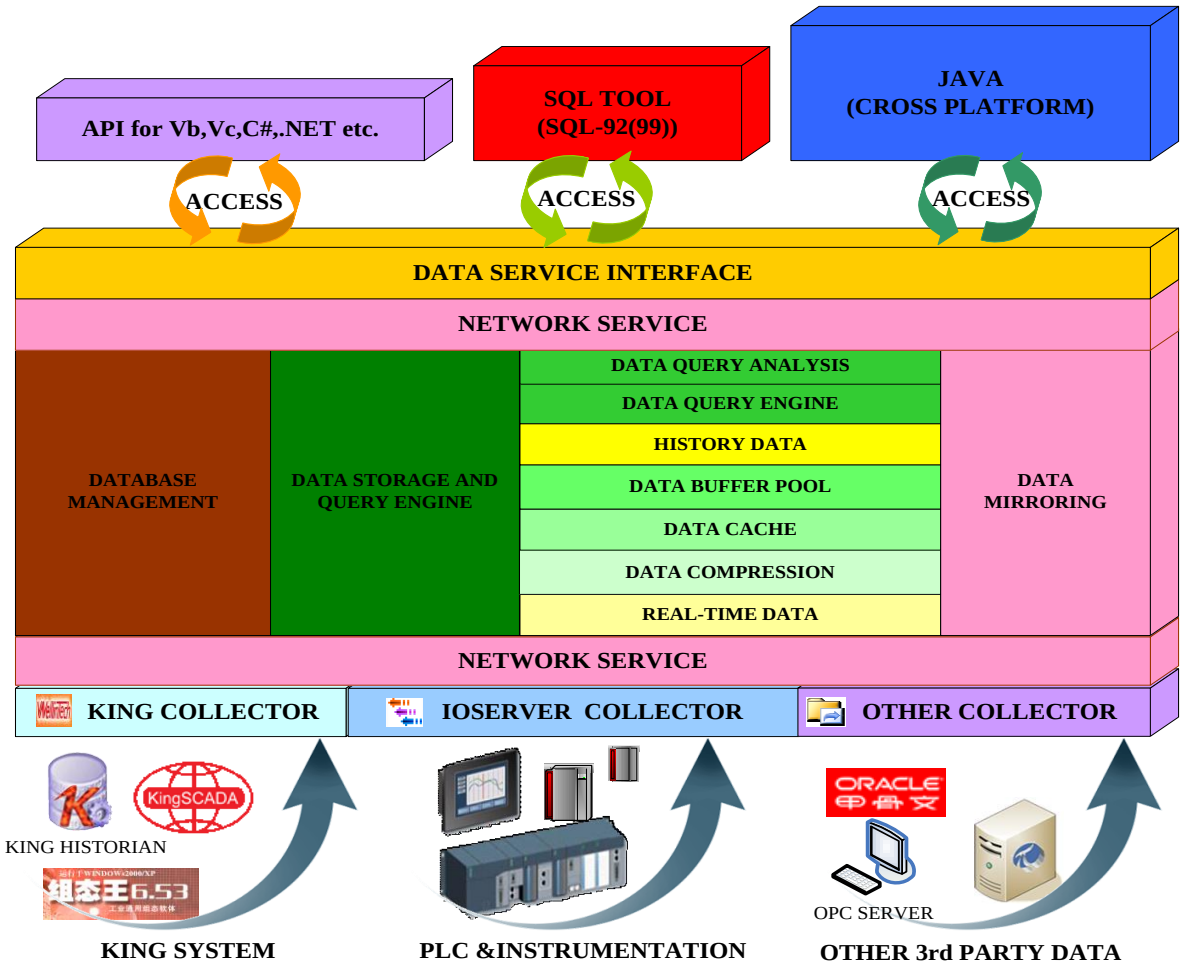
Product Features

- ✓ Visualization Platform in 3D
- ✓ Concept of Model, quick and reusable configuration
- ✓ Intelligent and Online Diagnosis
- ✓ Independent Data Collection
- ✓ Multiple Redundancy Solutions
- ✓ Strong Network Function



What do We Offer

Industry Database——KingHistorian



High Performance

1、1 million tags on single machine

2、storage 0.6mil/s; query 0.2mil/s

3、high data compression rates, 25% - 95%

Abundant Interfaces

1、abundant data access interfaces, such as API,ODBC,OLEDB(ADO),SDK etc.

2、over 150 API interface functions, support database development with languages like C,C++,C#, VB

3、SQL interface conforming SQL-92 standard

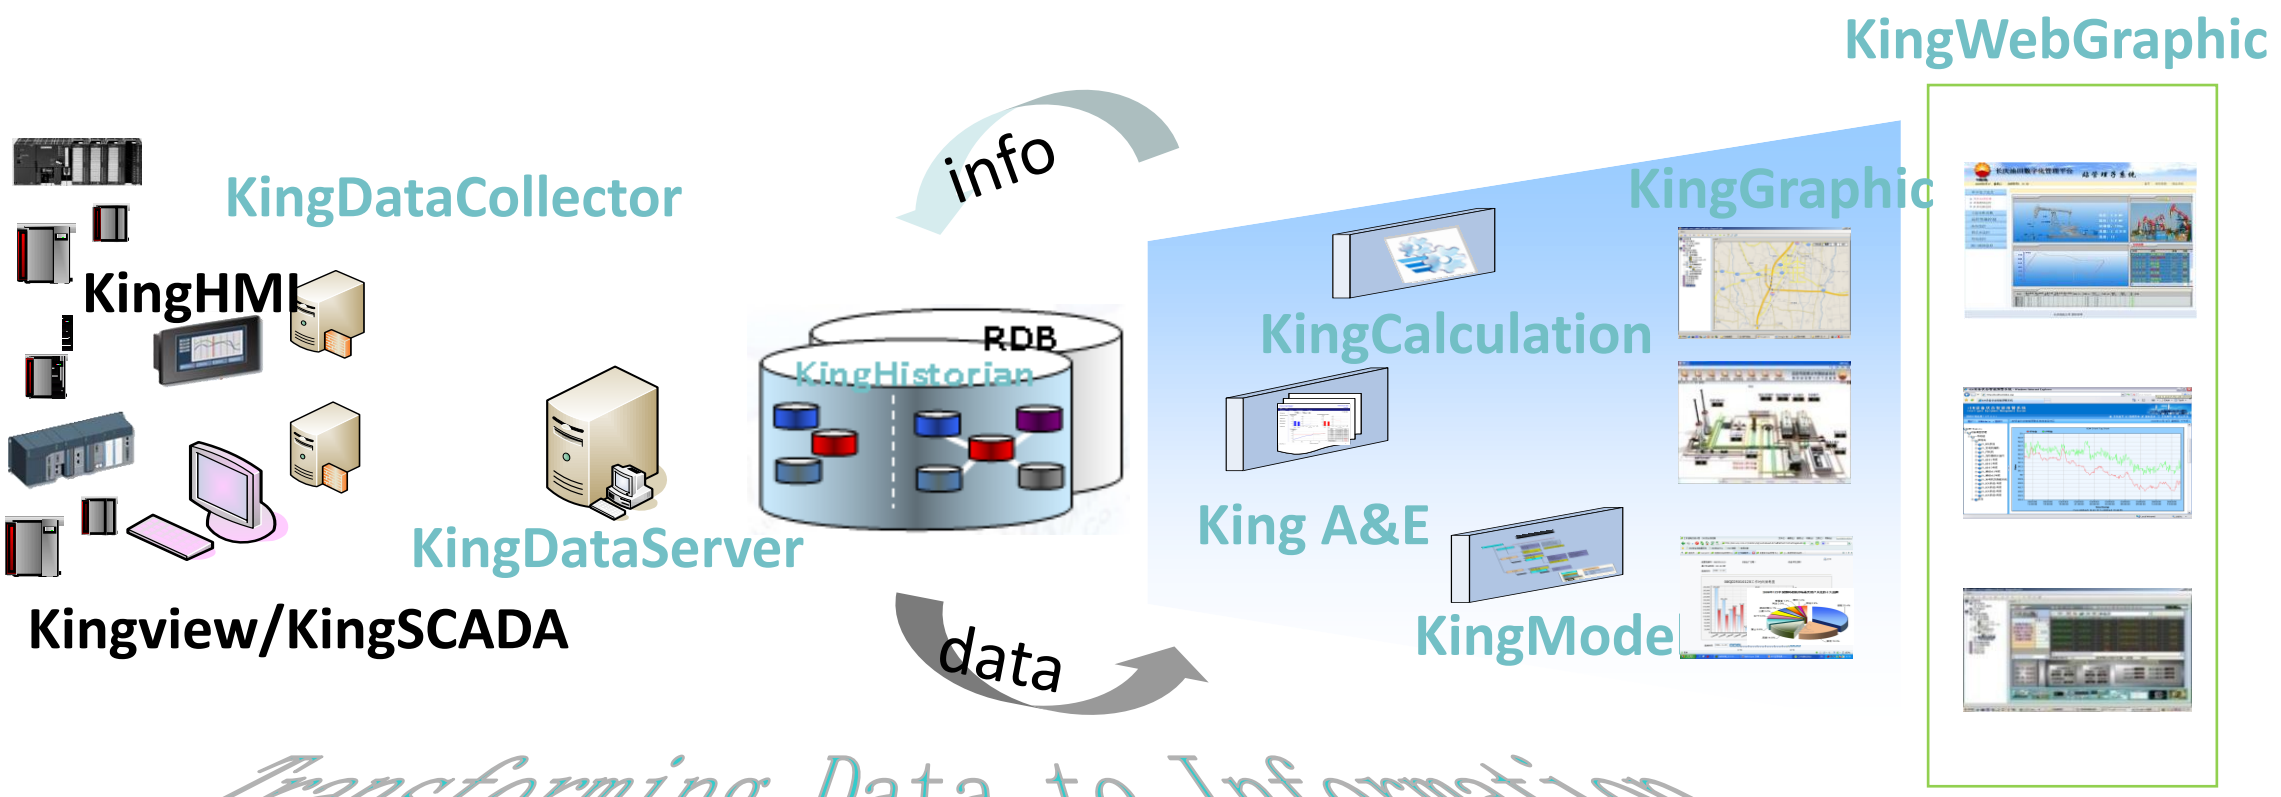
4、JAVA interface

Special Data Compression Technique

Setting compression rate according to demand

What do We Offer

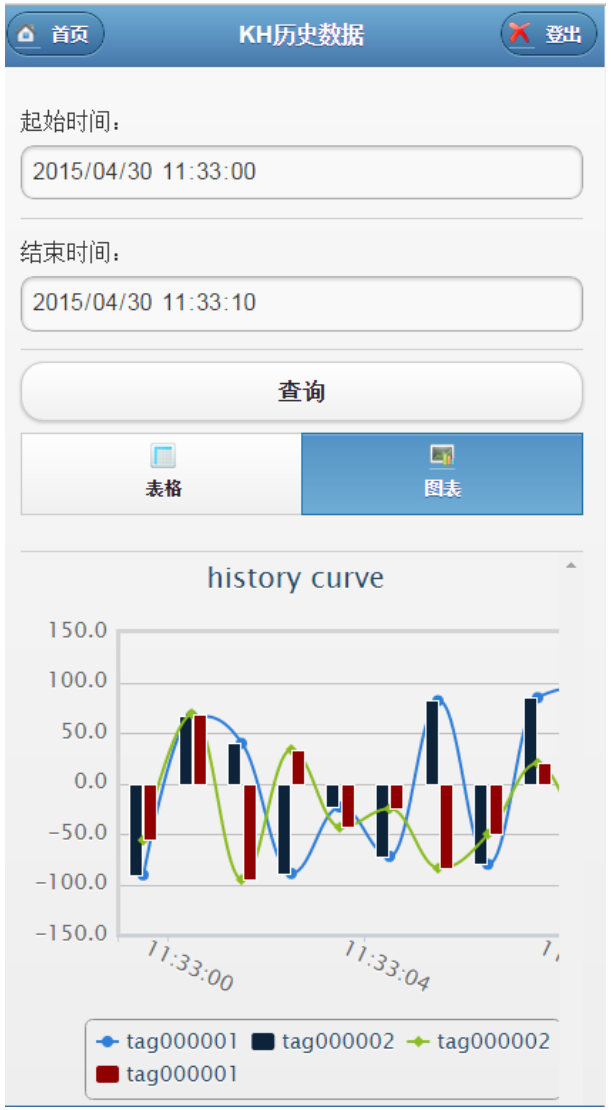
Real-Time Intelligent Platform——KingRTIP

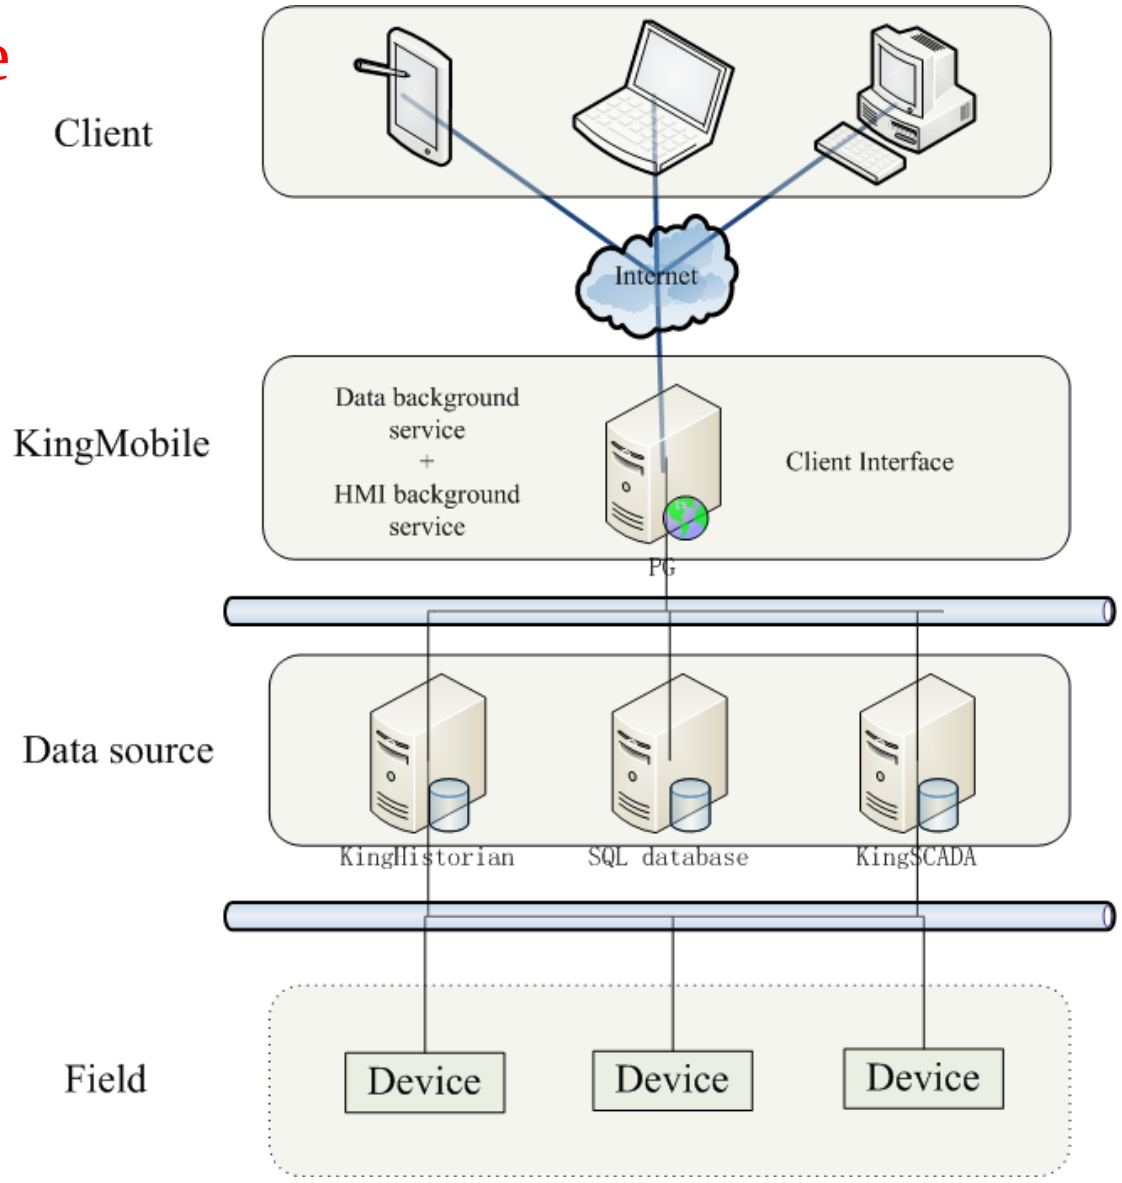


Transforming Data to Information

What do We Offer

Mobile Solution——KingMobile





What Are Our Strengths

亚控科技 WellinTech

Strongest R&D team of the world in this area and Customization

Over 150 professional and experienced program developers for new software, new Applications and new drivers. And we provide customized development service.

Longest and Complete Product Line of Automation Software

Reliable and Large Amount of Applications in Every Field

Over 12 000 sets of our products have been bought and applied in every field every year
More than 150 000 sets have been applied since presentation of the first version

Competitive Price

Low and high-end SCADA software portfolio
A license covers price for all existing drivers and applications (with the exception of web publishing)

Strong Technical Service

Several dozen experienced technical and solution engineers
Free on-site technical support

What Are Our Application Fields and Cases

Almost Every Field

Public Works
Water Conservancy
Electricity
Oil & Gas
Metallurgy

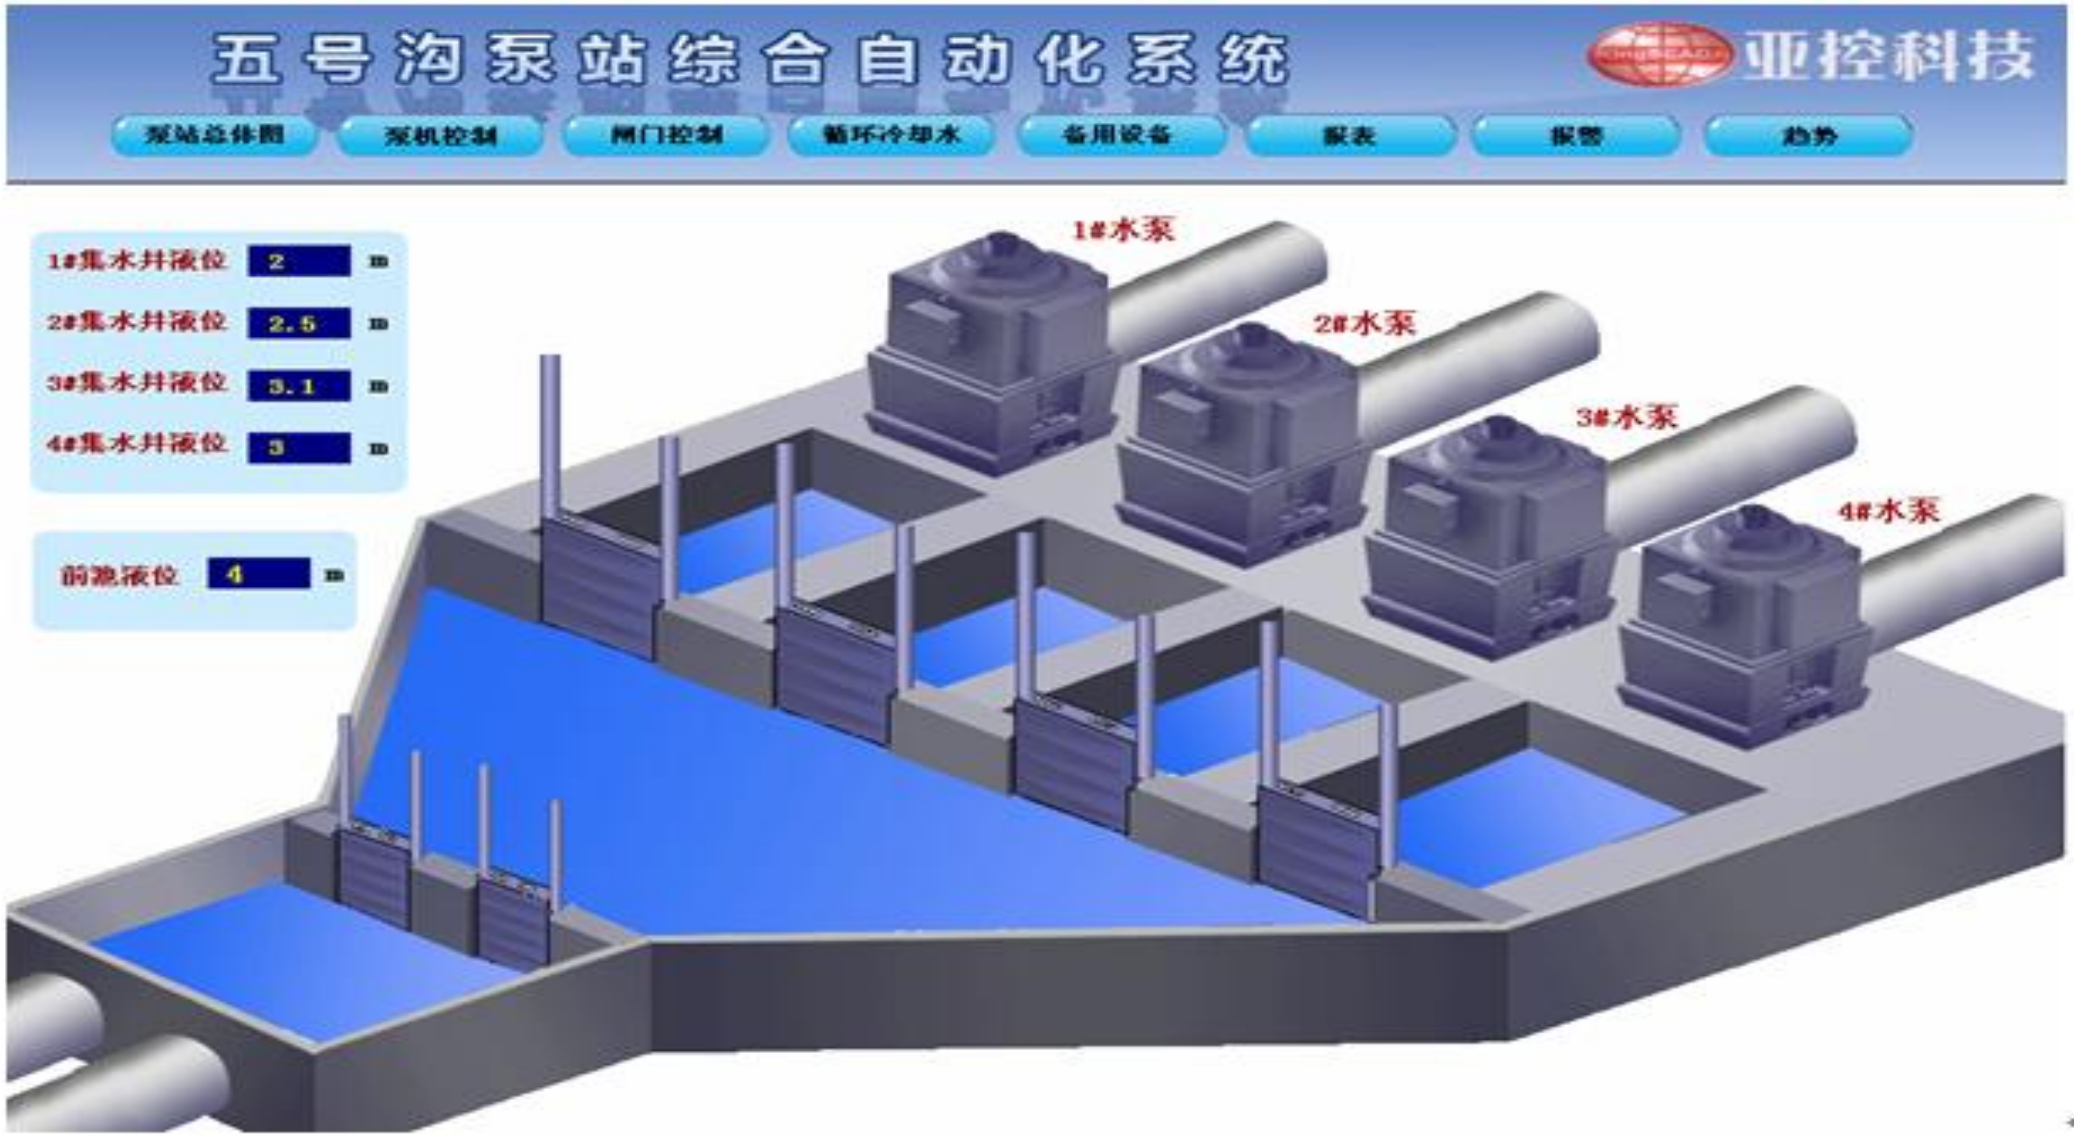
Environment Protection
Transportation
Mine
Aerospace
Food & Beverage

Machine
Production
Packaging
Building
… …

What Are Our Application Fields and Cases

Application: Monitoring System of Qingcaosha 5th Pump Station in Shanghai

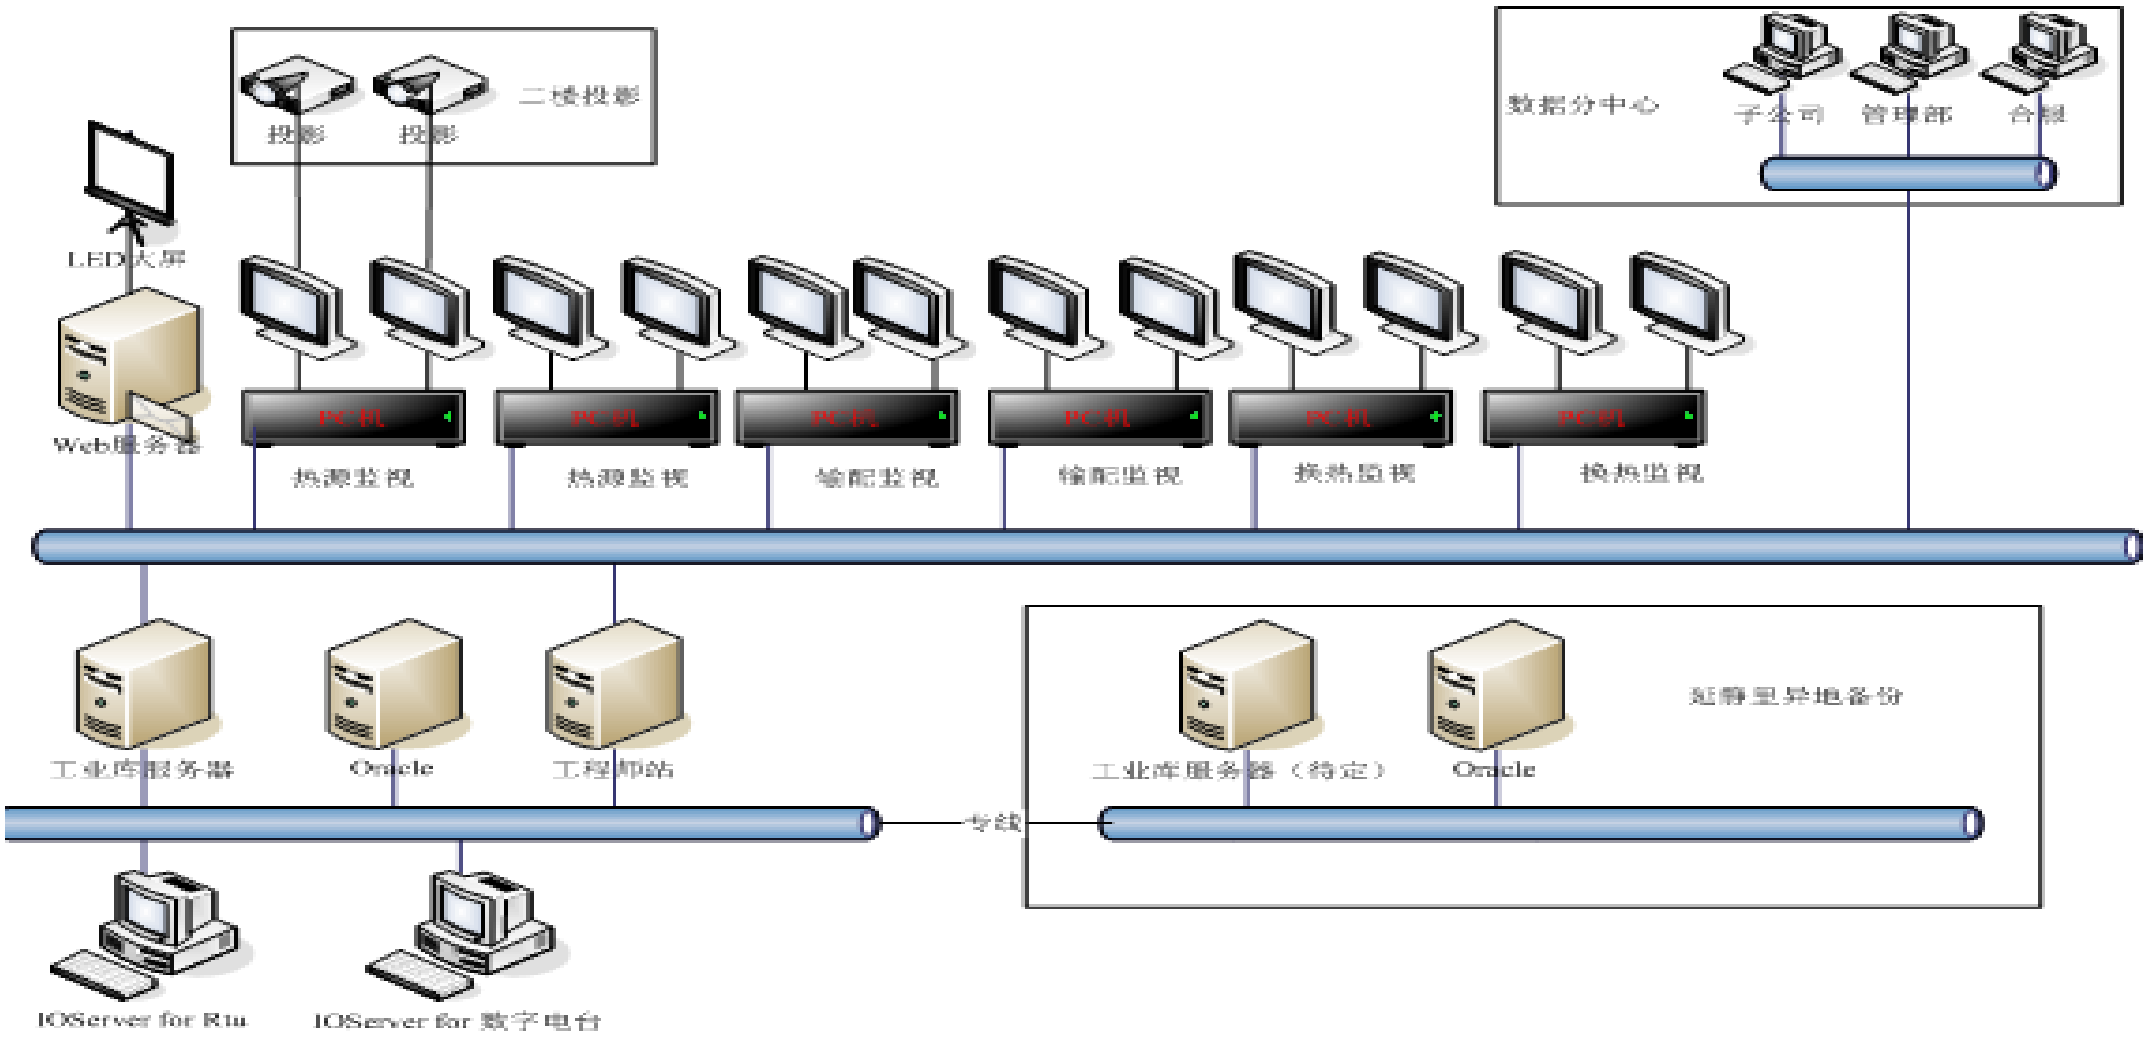
Control System for the Biggest Raw Water Source Project in Asia



What Are Our Application Fields and Cases

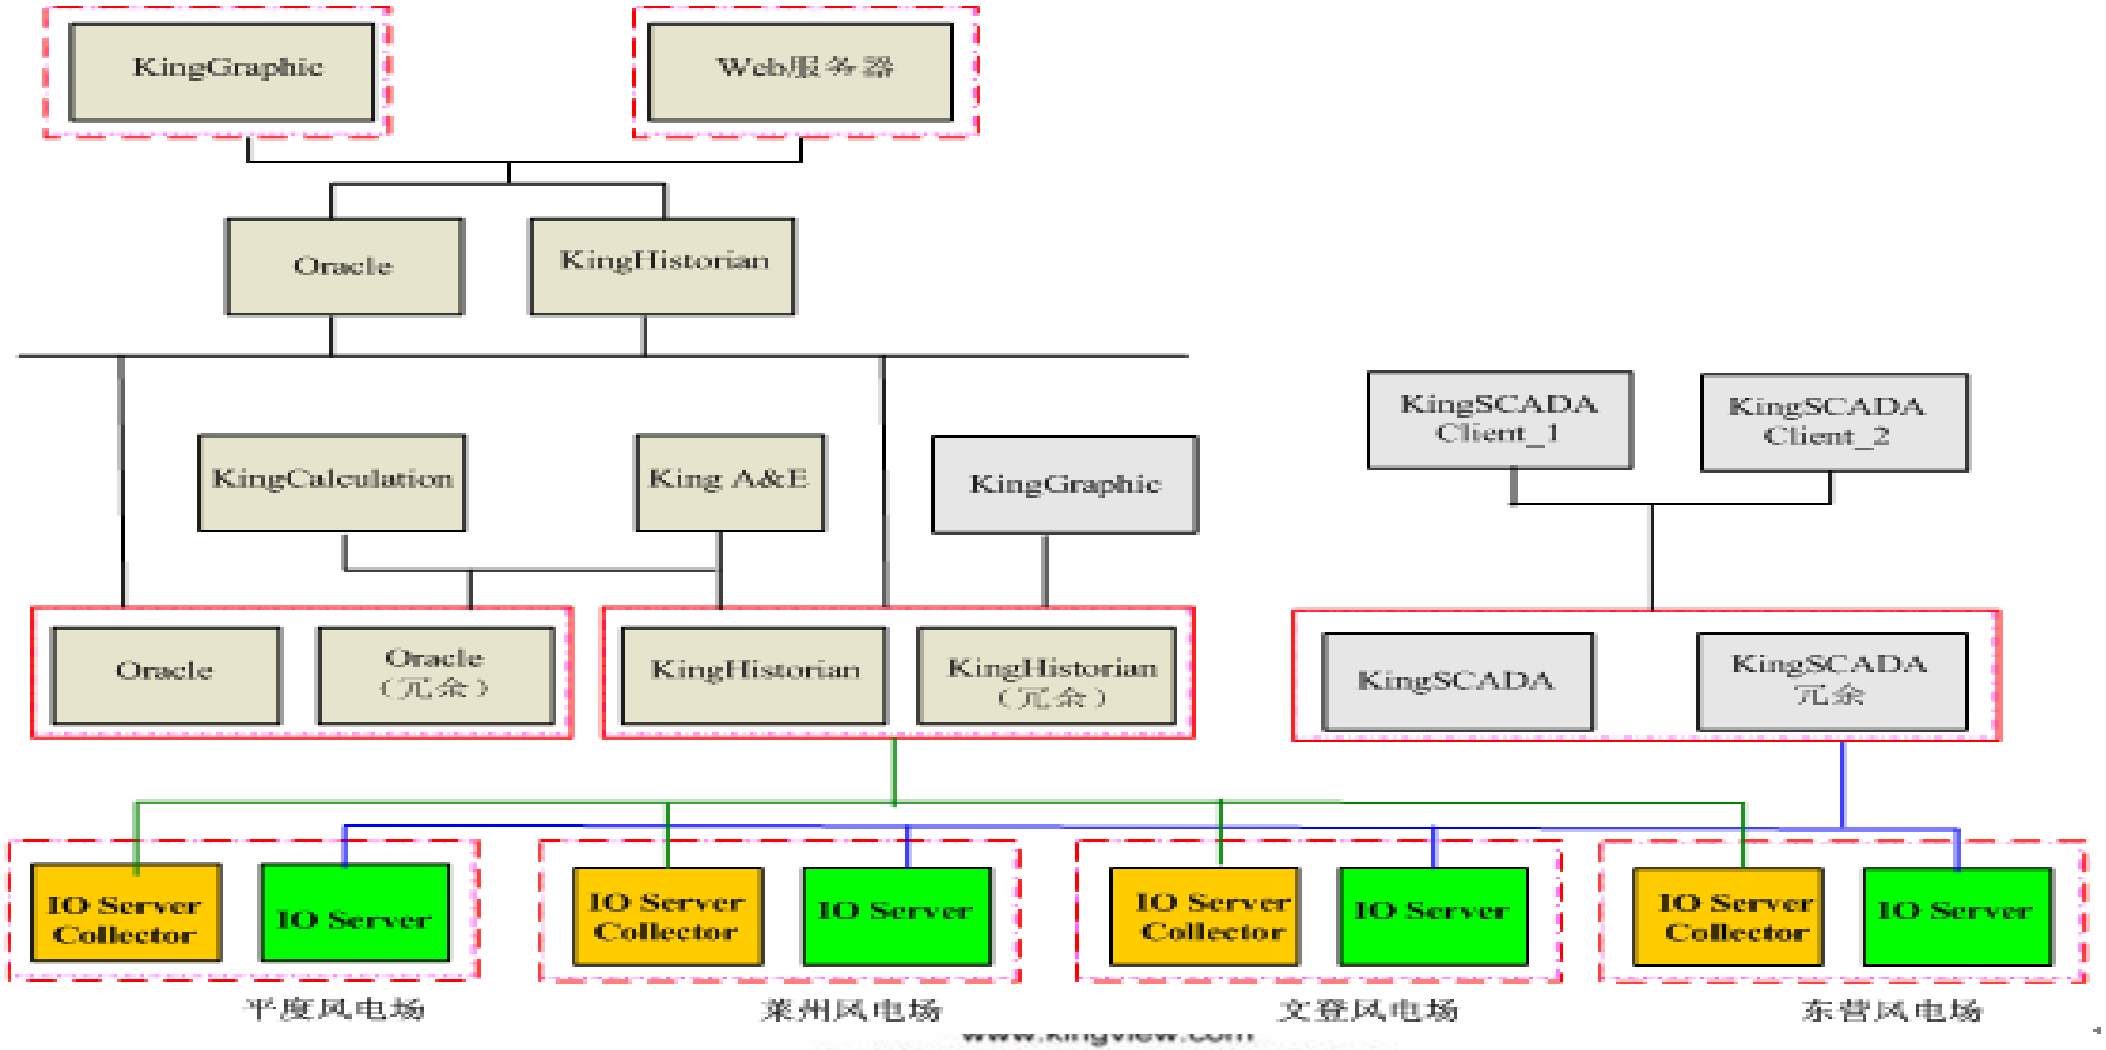
Application: Monitoring System of Beijing Heat Supply Network

Control System for Heat Supply Network of 21 mil. City Beijing



Application: Monitoring System of Yueneng Wind Farm Cluster

Control System for all Wind Farms in 95 mil. Province Shandong



SCADA System for Irrigation of Pivots Farms in Kansas U.S.

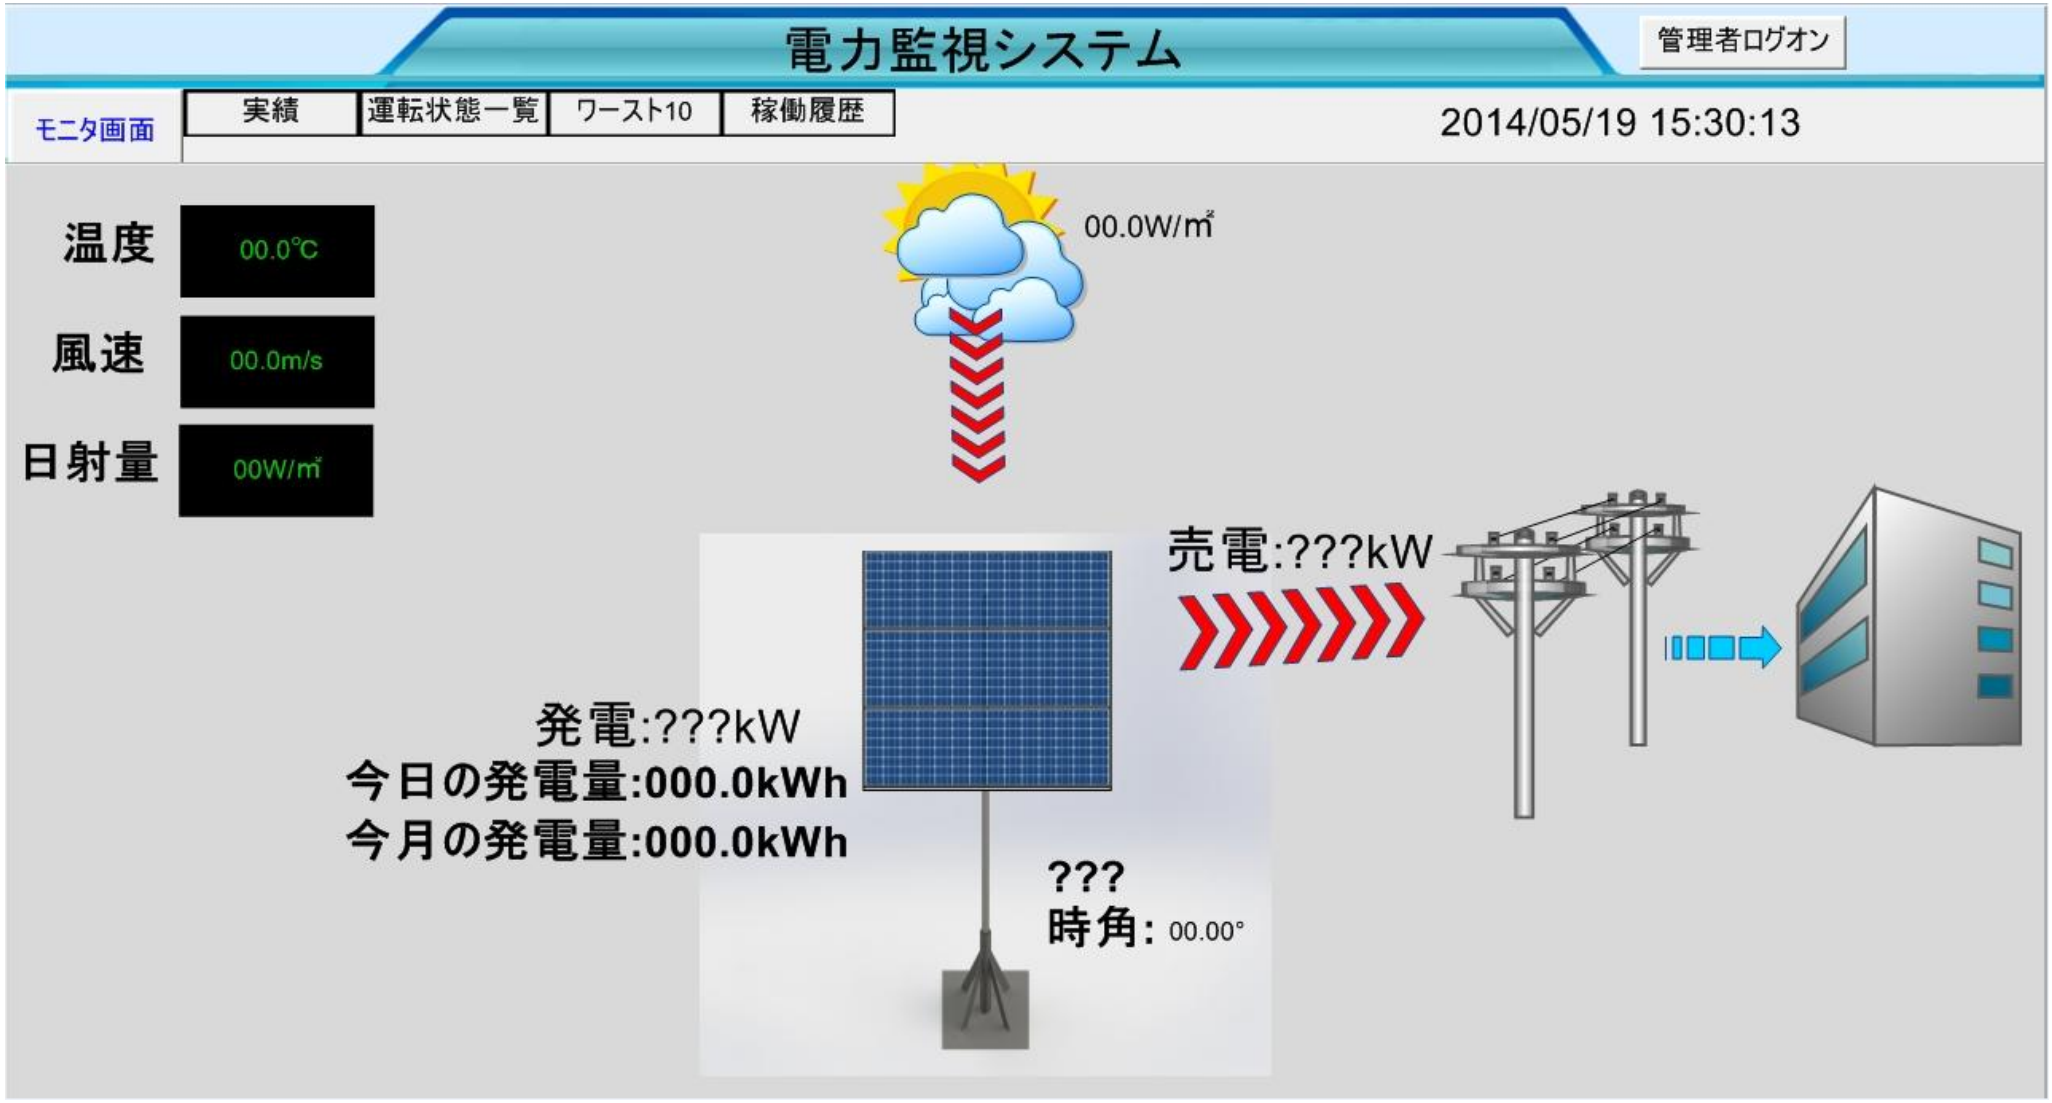
Control System for the Irrigation of Pivots Farms in Major Agriculture State of U.S.

SCADA System for Irrigation of Pivots Farms in Kansas U.S.

Control System for the Irrigation of Pivots Farms Major Agriculture State of U.S.

What Are Our Application Fields and Cases

Solar power control system in Japan



What Are Our Application Fields and Cases

亚控科技 WellinTech

Air pollution monitoring system in India
